

TimberTech® Composite Decking Recognized by Industry and Design Professionals for Performance, Innovation and Sustainability

CHICAGO—April 18, 2024 (BUSINESS WIRE)-- [The AZEK Company Inc.](#) (NYSE: AZEK) ("AZEK" or the "Company"), the industry-leading manufacturer of beautiful, low-maintenance and environmentally sustainable outdoor living products, including TimberTech® decking and railing, Versatex® and AZEK® Trim, and StruXure® pergolas, is proud to announce that the new [TimberTech Composite Terrain+ Collection™](#) has been recognized for its innovative design and performance characteristics as well as its sustainability attributes, receiving Green Builder's 2024 Sustainable Product of the Year Award and being named to HGTV Magazine's 2024 Green List.

TimberTech Composite Terrain+ decking features sophisticated aesthetics with multi-color variegation and realistic emboss patterns combined with the high performance and durability found across all of TimberTech's Composite decking collections. With its protective 4-sided capping, the Terrain+ Collection palette includes three on-trend colors, including Weathered Oak, Natural White Oak, and Dark Oak – each delivering a sophisticated, versatile and natural wood look. It is sustainably manufactured in the USA with up to 85% recycled content and protected with Product and Fade & Stain Limited Warranties for up to 30 years.

"As we celebrate the recognition of our TimberTech Composite Terrain+ Collection by Green Builder and HGTV Magazine, it's clear that our commitment to innovation and sustainability is resonating with industry experts and consumers alike," said Chief Marketing Officer Sam Toole. "This award-winning collection is a testament to our dedication to creating products that are both beautiful and environmentally responsible. It also reinforces AZEK's position as an industry leader, where our focus on innovation enables us to consistently launch new outdoor living solutions that meet and exceed homeowner expectations."

The Terrain+ Collection was named a winner in [Green Builder's 2024 Sustainable Product of the Year Awards](#), which recognizes the best innovations in sustainable home and building product design. Receiving accolades for its nature-inspired design, realistic wood looks, and superior performance and durability, the collection's environmental sustainability attributes also stood out to the judges who deemed TimberTech as one of the brand leaders defining the future of green building.

2024 marks the second year in a row that TimberTech Decking was featured on [HGTV Magazine's Annual Green List](#), which features the editors' best picks for eco-friendly furniture, décor and outdoor

spaces. The Terrain+ Collection was their standout pick for homeowners looking to make their outdoor spaces more environmentally friendly.

About The AZEK® Company

The AZEK Company Inc. (NYSE: AZEK) is the industry-leading designer and manufacturer of beautiful, low maintenance and environmentally sustainable outdoor living products, including TimberTech® decking and railing, Versatex® and AZEK® Trim, and StruXure® pergolas. Consistently awarded and recognized as the market leader in innovation, quality, aesthetics and sustainability, our products are made from up to 85% recycled material and primarily replace wood on the outside of homes, providing a long-lasting, eco-friendly, and stylish solution to consumers. Leveraging the talents of its approximately 2,000 employees and the strength of relationships across its value chain, The AZEK Company is committed to accelerating the use of recycled material in the manufacturing of its innovative products, keeping hundreds of millions of pounds of waste and scrap out of landfills each year, and revolutionizing the industry to create a more sustainable future. The AZEK Company has recently been named one of America's Climate Leaders by USA Today, a Top Workplace by the Chicago Tribune and U.S. News and World Report, and a winner of the 2024 Real Leaders® Impact Awards. Headquartered in Chicago, Illinois, the company operates manufacturing and recycling facilities in Ohio, Pennsylvania, Idaho, Georgia, Nevada, New Jersey, Michigan and Minnesota.
